KUMOSPHERE

+ SAP® DIGITAL PAYMENTS ADD-ON

With KUMOsphere, our cloud-native payment portal built on SAP® Business Technology Platform (BTP), you get the best of SAP® technology—combined with the power of the SAP® Digital Payments Add-On. Together, they create a streamlined, end-to-end solution for managing transactions, reducing complexity, and ensuring compliance.

BUILT BY AN SAP SILVER PARTNER, POWERED BY SAP TECHNOLOGY

As an SAP Silver Partner and part of the SAP PartnerEdge Build Program, we are committed to delivering SAP-native solutions that enhance financial operations without adding complexity.

KUMOsphere, built as a Side-by-Side Extension on SAP BTP, fully supports SAP's Clean Core approach. By leveraging only SAP standard APIs and integrating seamlessly with the SAP Digital Payments Add-On, our solution eliminates the need for custom code modifications in your SAP S/4HANA system. This ensures:

1. **Simplified Upgrades**
2. **Lower Maintenance Effort**
3. **Future-Proof Scalability**

WHY CHOOSE KUMOSPHERE WITH SAP DIGITAL PAYMENTS ADD-ON?

Native SAP Integration
No middleware, no third-party connectors—KUMOsphere is built directly on SAP BTP, ensuring full compatibility with SAP S/4HANA.

Real-Time Payment Processing
Payments are processed instantly, with no data replication. Whether it's credit cards, SEPA direct debit, ACH, or global payment providers—transactions remain fully synchronized with your SAP backend.

Automated Reconciliation
Reduce manual workload with automatic matching of incoming payments and open invoices, directly within SAP's Financial Accounting module.

Best-in-Class Security & Compliance
Leverage SAP's enterprise-grade security standards, ensuring full PCI DSS compliance while minimizing exposure to sensitive payment data.

Lower TCO, Faster ROI
Eliminate infrastructure costs and reduce maintenance efforts by running a cloud-native Side-by-Side Extension on SAP BTP.
